

Scoring a Test

In ParSCORE you can score from the scanner or from a File. Scoring from a file can be from a Comma Delimited file or from ParTEST Online (see *Module 7*). Test results can also be imported from Classroom Wizard. In order for ParSCORE to Score a Test – the Answer Keys **MUST** be entered for all versions of the test. See Appendix F in your ParSCORE User’s Guide for complete details on the Comma Delimited format.

During scoring you can:

- ✓ Inspect Multiple Marks
- ✓ Omitted Marks
- ✓ Print Date on Form *(Dependent on Scanner’s Options)*
- ✓ Print Raw Score on Form *(Dependent on Scanner’s Options)*
- ✓ Print Total Score on Form *(Dependent on Scanner’s Options)*
- ✓ Auto Enrollment
- ✓ Reprocess Forms with Errors *(Dependent on Scanner’s Options)*

Notes regarding Scanner Models:

Printing is unavailable for: 8000, 8200, 8400 and Clarity Scanners

Reprocess Forms with Errors is available: 2500, 4000, 5000, 8600, ES2800

Error Marking:

The Error Marking feature enables an answer key and the corresponding student forms to be processed in a single step.

- Error marks and the final score are printed on the student forms.
- Only **one** version of a test is allowed.
- If the answer key form contains a subjective score and the student form doesn't, a form error will display on the scanner's LCD panel.
- If the student forms are scanned before the key form, the scanner will stop and a form error will display on the scanner's LCD panel.

The Error Marking feature is only available for the following Scantron scanners:

- ES2010, ES2260, ES2800.
- The firmware version must be .03C or above.
- The F-16457-PAR-L error marking form must be used.
- Be sure the Scanner Configuration has been completed under the Options pull-down menu.

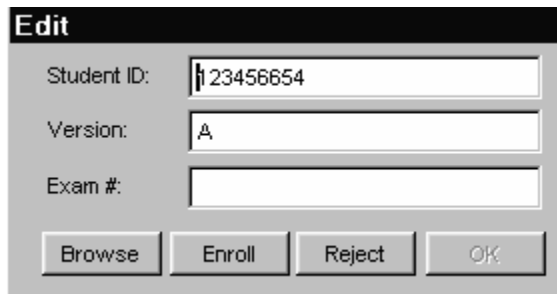

Scoring a Test:

- ✓ Select the Category
- ✓ Select your Score Method
- ✓ Select your Scoring Options
- ✓ Select Score to begin
- ✓ Press the “END” on the Scanner when finished

On-line Editing:

During the Scoring process you will be prompted to correct any invalid Student ID Numbers. The Student ID Length is verified against the Enrollment Setup under the Options pull-down menu.

You will have the option to browse the current enrollment if the student marks in a partial Student ID Number.
