APPLICATION ESSAY

Please attach a brief essay that tells us more about yourself and what you believe a major in Global Interdisciplinary Studies should provide you. It would be most helpful if you could provide us with some of your critical insights on the state of world affairs, locally and globally. For example, what sorts of things intrigue you? What major problems do you see in the world today? Can you anticipate any solutions? What books or ideas have special meaning to you? What would you like to know and do well? What impact do you hope to make as *a responsible global citizen*? What are your ideals and dreams for the future?
