oscar.abello@villanova.edu
484- 680-0574 (C) 610- 284- 1459 (H)

I find myself most passionate about the social justice dimension of the Catholic Church and how I can most efficiently put those teachings to powerful and productive use for society. As a member of our campus ministry's Discipleship Council, I conclusively feel that it is part of my own personal form of Discipleship that I use what has been given to me to work for Peace and Justice. Last summer I was fortunate to attend the National Catholic AIDS Network's annual AIDS Ministry Conference in Chicago, thanks to the recent partnership of CRS and Villanova. This past winter break I spent two weeks in South Africa on a mission trip to the epicenter of the world HIV/AIDS pandemic. This summer I'll be returning to Chicago as a Conference Planning Team member for NCAN. In between those events are countless conversations, classes, meetings and other forms of gathering that each have contributed significantly to my interest in Peace and Justice.

Angelo, Megan **VU 2006**
2141 Hillcrest Rd. Quakertown, PA 18951
215-498-5002
megan.angelo@villanova.edu

After graduating with an English major, I plan to take the summer off and look for an editorial job in magazines.

Since graduation, I received my MD from Albany Medical College and headed west to find better fly-fishing. I did a family medicine residency in Casper, Wyoming, and now am practicing rural family medicine in Jerome, Idaho. My practice includes everything from pediatrics to geriatrics and Obstetrics as well. I have not yet married or started a family, as I have not yet found a woman worthy of my dog Trout's approval. In 2004 I joined the ACLU out of concerns for civil liberties limitations by the current administration and specifically the Patriot Act. Recently I accepted a Board position with the Idaho ACLU. I have spoken out against our administration's aggressive foreign policy and their efforts

to instill and nurture fear and use it as a tool to gain public support for bad policy.

These actions recently earned me a position on the "No Fly List", though the Delta agent says the name "Michael Kevin Duffy" probably is just very similar to the name of some really bad guy.

Failla, Peter **VU 1995**

caitlin.fouratt@gmail.com

After graduating from Villanova (2004), I did research on migration and xenophobia in Costa Rica as a 2004-2005 Fulbright scholar. I spent a lot of time with NGOs, women's associations, and government officials and also explored the beaches, volcanoes, and rainforests. Now, I'm at the University of Cambridge, in the UK, doing an MPhil in Latin American Studies and I'll be graduating in July 2006. The university is amazing and the people are very interesting. I've been able to study sociology, politics, and even Latin American film and visual arts this year, and my dissertation is in anthropology (mostly). After Cambridge, who knows where I'm headed? I'm interested in migration, especially in issues linked to gender and race and want to complete my PhD, though not right away. Right now, I'm interested in working with an NGO or think

tank, in the US or Central America, that deals with similar topics.

Gentile, Jaime **VU 2006**
174 Imperial Circle Rochester, NY 14617

VU 2002

After almost 3 years as a union organizer for AFSCME in Chicago, I am a student at Marquette University's Law School. I chose MULS because of its focus in restorative justice. I first came across restorative justice through my Villanova service trip to South Africa. I experienced themes of restorative justice in my organizing campaign, as we called for an open dialogue between management and workers. Restorative Justice is sporadically used in juvenile courts across the country, as a way to focus on healing the victim's harm and rehabilitating the offender. I am interested in opening it up to adult criminal courts as well as in other non-traditional areas such as labor and community dispute resolution.

Employed by National Association of Community Health Centers as Associate Director of Medicare and Medicaid Regulatory Affairs

Masters in Public Health, Health Policy Expected May 2006 from George Washington University School of Public Health and Health Services

Interested in working in public policy on the federal level on a wide range of social issues has heightened my commitment to ensuring that policies reflect the values of a just society. In particular, my professional and educational pursuits after graduating from Villanova have led me to understand how public health is about social justice. In the last year I joined the community health center movement and have been engaged in fulfilling its mission to ensure access to quality health care services for all individuals, regardless of where they live, their citizenship status and their ability to pay.

In addition, I serve as Chair of the Arlington County Commission on the Status of Women. The Commission advises the Arlington County Board on issues impacting women and families in the county and identifies policy and programmatic efforts that could advance their status in this community and beyond.

I currently teach social studies at Downingtown East High School. While at Villanova, I was active in a variety of P&J student organizations and received the Merton/Day award. I helped to lead campus activities to protest apartheid in South Africa. Upon graduating, I worked for Bread for the World in Washington, D.C., and received my master's degree in American history from American University. I worked as a union organizer throughout the U.S. before pursuing a teaching career. I remain active in hunger issues, labor rights, and local politics. I met Villanova alumna, Irene Langran, in 1993 while she was working in the Center for P&J. We re-met several years later and were married in 2004.

Steedle, Nancy **VU 2003**
825 Laurel Ave Lititz, PA 17543
