

**PARTNERSHIP FOR BROADBAND WIRELESS INNOVATIONS,  
DEVELOPMENT AND COMMERCIALIZATION**

**ACKNOWLEDGEMENT**

We gratefully acknowledge the Partnerships for Innovation program at the National Science Foundation as our grant source. This program promotes innovation by bringing together colleges and universities, State and local governments, private sector firms, and nonprofit organizations to form partnerships that support innovation in their communities by developing the people, tools, and infrastructure needed to connect new scientific discoveries to practical uses. The NSF PFI Program Director is Dr. John C. Hurt.
