

## DISTANCE LEARNING TAKE AN ONLINE COURSE THIS SUMMER

For summer 2009, Villanova summer sessions will offer forty-three undergraduate courses that may be completed away from the campus while still earning Villanova credits toward your degree. These courses will use computers, Blackboard/Vista, the Internet, CDrom, and e-mail or a combination of these formats. Students should contact the faculty member concerning specific hardware/software requirements before registering. Students should also contact their academic advisor for approval prior to registering for a distance learning course. This flyer was created based on course information received by November 18, 2008. For the most updated information on courses, times and details please visit: <http://www.villanova.edu/enroll/registrar>. Choose *Schedule of Classes* to view the Master Schedule for summer 2009.

### Principles of Financial Accounting

11332 ACC 1101-035 (5/27-7/27)

Understanding business by being able to understand the financial statements. Accounting concepts, transaction analysis, analytical procedures, valuation and allocation, revenue recognition, expense matching, and cash flow analysis - operating, investing, and financing. Includes appropriate use of technology. For additional information, please contact Dr. Derstine at [robert.derstine@villanova.edu](mailto:robert.derstine@villanova.edu).

3 cr.

Dr. Derstine

### Principles of Managerial Accounting

11335 ACC 1102-035 (5/27-7/27)

How management accounting information can be used to help firms achieve strategic goals and profitability objectives. Use of an entrepreneurial perspective to examine how managers apply risk measurement and management techniques to business planning and control systems. Case-based learning to help students develop communication, technology, and teamwork. Prerequisite: ACC 1101 or HON 1101. For additional information, please contact Dr. Licata at [michael.licata@villanova.edu](mailto:michael.licata@villanova.edu).

3 cr.

Dr. Licata

### Accounting Information Systems

11337 ACC 2340-035 (5/27-7/27)

11544 ACC 2340-036 (5/27-7/27)

This course offers both a conceptual overview and hands-on experience with a variety of AIS related material. Topics covered include: Semantic modeling and event driven accounting information systems (AIS); development, documentation, control and audit of AIS, with particular reference to the COBIT framework; an overview of XBRL and its role in financial reporting; the use of database management software and accounting software in developing modern AIS. Prerequisites: (ACC 1102 or HON 1102) and (DIT 1006 or MIS 1006 or HON 1016). For additional information, please contact Dr. Lee at [johnny.lee@villanova.edu](mailto:johnny.lee@villanova.edu).

3 cr.

Dr. Lee

Dr. Lee

### Human Physiology - Body Works

11259 BIO 1655-025 (6/26-7/27)

11267 BIO 1655-035 (5/27-7/27)

This on-line course examines how the human body works and is designed for Arts and Villanova School of Business majors. The course is divided into three categories: (1) lecture, (2) laboratory and (3) term papers. The *lecture* portion of the course is delivered over the web and uses audio with a combination of text, diagrams, movies and animated sequences. Each lecture usually starts with an article from a web source like CNN-Health. Sufficient physiology is then presented for you to understand the article. The idea is to present lectures as a series of related topics and issues rather than a general review of physiology. Each lecture is designed to allow you to progress at your own pace and within your own time frame. Each of the four lecture exams is done on-line and within a programmed time frame; each counts 15% of the final grade. The on-line *laboratory* experience uses simulations, animations and movies of real experiments. Students are expected to send a summary of their measurements and data, placing their observations into the framework of the knowledge they have gathered in *class*. Graded reports are then returned and they count 20% of the final course grade. The two web-based *term papers* revolve around some aspect of body dysfunction and each is worth 10% of the final grade. Although local students are welcome to come to Villanova to talk with the instructor there are no requirements for an initial orientation meeting. All communication is done via e-mail, the chat-line, or the telephone, and daily (usually evening) *office hours* are posted. Each student can monitor their progress through a password-protected page where their grades are posted. Students require access to an on-line computer and a web browser with the (free) Flash plug-in. All programs have been written in HTML and Flash, and (to date) no problems have been encountered with fire walls. A course description and orientation to this course can be found at the following URL: <http://www10.homepage.villanova.edu/phil.stephens>. For additional information, please contact Dr. Stephens at [phil.stephens@villanova.edu](mailto:phil.stephens@villanova.edu).

4 cr.

Dr. Stephens

Dr. Stephens

### Theories of Persuasion

11686 COM 2280-015 (5/27-6/24)

Presents the theoretical processes by which communication influences the attitudes, beliefs, and behaviors of message recipients. Both rhetorical and social scientific approaches to persuasion are examined. Application is made to the areas of advertising, public relations, politics and health communication. Writing Enriched. For additional information, please contact Dr. Woodard at [emory.woodard@villanova.edu](mailto:emory.woodard@villanova.edu).

3 cr.

Dr. Woodard

**Media Effects**

11687 COM 3355-015 (5/27-6/24)

A service learning course that trains students on how to critically evaluate media content given its role in society and degree of compliance with prevailing media policies. The course culminates with a compilation of analysis results and the production of a research report to be disseminated to academics, advocacy groups, industry executives, and parents. Prerequisites: COM 2280 or COM 2300 or COM 2340. For additional information, please contact Dr. Woodard at emory.woodard@villanova.edu.

3 cr.

Dr. Woodard

**Gender and Communication**

11688 COM 3406-015 (5/27-6/24)

Communication of women and men against the backdrop of society and feminism in such communicative contexts as families, schools, friendships and relationships, organizations, media, and technology. Communication of women and men against the backdrop of society and feminism in such communicative contexts as families, schools, friendships and relationships, organizations, media, and technology. Writing Enriched. Diversity II. Women's Studies. Prerequisite: COM 2200 or COM 2240 or COM 2280 or COM 2300 or COM 2340 or COM 2400 or COM 2440. For additional information, please contact Dr. Bowen at sheryl.bowen@villanova.edu.

3 cr.

Dr. Bowen

**Public Relations Writing**

11690 COM 3462-015 (5/27-6/24)

Offers students the foundation for producing a variety of written public relations materials. Structure includes an overview of the journalistic style of writing along with extensive practice in writing fundamentals. Following the work on enhancing writing skills, students will develop a variety of pieces for their portfolios. Final class products include print news releases, position papers, feature stories, media advisories, media kits, and other related assignments. Course is strongly recommended for students interested in public relations, advertising, marketing, and organizational communication. Prerequisite: COM 3460. For additional information, please contact Ms. Flanagan at jill.flanagan@villanova.edu.

3 cr.

Ms. Flanagan

**Discrete Structures**

11525 CSC 1300-035 (5/27-7/27)

Mathematical structures that support computer science: sets, logic and proof, mathematical induction, relations, functions, counting techniques, boolean algebra, matrices, graphs and trees. Prerequisite: (CSC 1051 Concurrency: Yes or ECE 1620 Concurrency: Yes). Online class sessions will be held Tuesday nights from 7:30-9:00 p.m. For additional information, please contact Ms. Metzger at sue.metzger@villanova.edu.

3 cr.

Ms. Metzger

**Introduction to Criminal Justice**

11387 CRJ 1000-015 (5/27-6/24)

This course presents an overview of the criminal justice system. It focuses on the nature, operation and critical issues of law enforcement, the courts and corrections. For additional information, please contact Dr. Arvanites at thomas.arvanites@villanova.edu.

3 cr.

Dr. Arvanites

**Operations Management**

11459 DIT 1141-015 (5/27-6/24)

11460 DIT 1141-016 (5/27-6/24)

11461 DIT 1141-017 (5/27-6/24)

Concepts and techniques for problems in manufacturing and service organizations. Topics: decision-making, forecasting, resource allocation, project management, quality, materials management, technology, and strategy. Prerequisite: (DIT 2010 or HON 2010) or STA 2108 or MAT 1235. For additional information, please contact Dr. Chaudhry at sohail.chaudhry@villanova.edu or Dr. Wright at daniel.wright@villanova.edu.

3 cr.

Dr. Chaudhry

Dr. Wright

Dr. Wright

**Business Statistics**

11590 DIT 2010-015 (5/27-6/24)

11591 DIT 2010-016 (5/27-6/24)

Statistical concepts and methods used in business and economics, may include Probability, Discrete and Continuous Probability, Sampling Distributions, Confidence Intervals, Hypothesis Testing, Regression Analysis, and Time Series. For additional information, please contact Mrs. Webster at elaine.webster@villanova.edu.

3 cr.

Mrs. Webster

Mrs. Webster

**Introduction to Microeconomics**

11319 ECO 1001-025 (6/26-7/27)

The price system, demand and supply analysis; the production process; analysis of market structures. For additional information, please contact Mr. Fiorenza at david.fiorenza@villanova.edu.

3 cr.

Mr. Fiorenza

**Introduction to Macroeconomics**

11314 ECO 1002-015 (5/27-6/24)

The economic system and its fundamental principles. The economic functions of government, monetary and fiscal policy, and international trade. For additional information, please contact Mr. Fiorenza at david.fiorenza@villanova.edu.

3 cr.

Mr. Fiorenza

**International Economics**

11316 ECO 3109-015 (5/27-6/24)

11317 ECO 3109-016 (5/27-6/24)

11318 ECO 3109-017 (5/27-6/24)

Comparative advantage; gains from foreign trade; Heckscher-Ohlin doctrine; Stolper – Samuelson and Specific Factor Model; Balance of Payments theory and practice; tariff theory and policy; foreign exchange rates determination, foreign exchange systems, economic integration; international financial crises and system reform, open economy macroeconomics, poverty, international organizations. Prerequisites: (ECO 1001 or HON 1080) and (ECO 1002 or HON 1081). For additional information, please contact Dr. Wolnicki at miron.wolnicki@villanova.edu.

3 cr.

Dr. Wolnicki

Dr. Wolnicki

Dr. Wolnicki

**Fundamentals of Electrical Engineering II**

11653 ECE 2054-D35 (5/27-7/27)

This is the second course of a year-long sequence on the fundamentals of Electrical Engineering. The topics of this second course are second-order circuits, ac circuit analysis, ac power and three-phase circuits, frequency response plots, resonance, and magnetically-coupled coils and transformers. This course will be delivered on a live broadcast and lecture-on-demand basis entirely over the Internet. Prerequisite: ECE 2052. For additional information, please contact Dr. Mercede by phone at (610) 519-4982 or by e-mail at frank.mercede@villanova.edu.

3 cr.

Dr. Mercede

**Fundamentals of MATLAB**

2 cr.

11654 ECE 2409-D15 (5/27-6/24)

Dr. Mobasser

Matlab is the premier language for many engineering and scientific computations. As a matrix-oriented language, the primary goal of this course is to learn to write efficient and tight code vectorized for quick execution. Other topics include 2D and 3D plotting, graph customization, importing and processing of multidimensional arrays such as images, video and CT scans. The course is delivered entirely over the internet via WebCT. Lectures are delivered in high quality digital video synchronized to class powerpoint slides. For best results students are expected to have access to broadband connection. For additional information, please contact Dr. Mobasser at [bijan.mobasser@villanova.edu](mailto:bijan.mobasser@villanova.edu) or 610 519-4958.

### Engineering Computation

3 cr.

11595 EGR 1705-D35 (5/27-7/27)

Mr. Fulmer

This course serves as an introduction to the use of computers in engineering and to problem solving in engineering. The analysis of problems will be accomplished using Mathcad, Excel, and Matlab. Programming structures such as decisions, loops and functions will be covered wherever appropriate. This course will provide students with a range of skills which will be useful not only in the engineering curriculum but also during their engineering career. For additional information, please contact Mr. Fulmer at [howard.fulmer@villanova.edu](mailto:howard.fulmer@villanova.edu).

### Journalism

3 cr.

11472 ENG 2020-015 (5/27-6/24)

Dr. Hollis

News gathering and news writing; principles, rules and techniques of news, editorials, features. A practicum with lectures. Use of computers and word processing. Writing Intensive. For additional information, please contact Dr. Hollis at [karyn.hollis@villanova.edu](mailto:karyn.hollis@villanova.edu).

### Topic: Technical Editing

3 cr.

11480 ENG 2045-035 (5/27-7/27)

Ms.

Graziano

This course teaches students how to edit technical documents such as reports, proposals, and manuals for elements of good writing including knowledge of the target audience, correct grammar, logical organization, sound structure, and fluent style. Topics presented include proofreading, copyediting, developmental editing, and working with clients. For additional information, please contact Ms. Graziano at [karen.graziano@villanova.edu](mailto:karen.graziano@villanova.edu).

### Topic: Advanced Business Writing

3 cr.

11481 ENG 2045-036 (5/27-7/27)

Ms.

Graziano

Good writing matters in business. Business professionals, communication specialists, and consultants are charged with writing letters, memos, business reports, and proposals on a daily basis. Writing problems impede their persuasiveness and credibility. This course teaches business writing techniques that will enable students to work effectively in any professional environment. No previous business writing experience is necessary. For additional information, please contact Ms. Graziano at [karen.graziano@villanova.edu](mailto:karen.graziano@villanova.edu).

### Ethical Traditions and Contemporary Life

3 cr.

11424 ETH 2050-015 (5/27-6/24)

Staff

11425 ETH 2050-016 (5/27-6/24)

Dr. Norton

11427 ETH 2050-025 (6/26-7/27)

Dr. Wilson

Major Western ethical traditions as they apply to selected contemporary ethical problems, with special consideration to Jewish and Christian perspectives. This course satisfies the Arts and Sciences Writing Enriched requirement. For additional information, please contact Dr. Norton at [michael.b.norton@villanova.edu](mailto:michael.b.norton@villanova.edu) or Dr. Wilson at [mark.wilson@villanova.edu](mailto:mark.wilson@villanova.edu).

### Principles of Finance

3 cr.

11433 FIN 1113-015 (5/27-6/24)

Dr. McWilliams

11444 FIN 1113-016 (5/27-6/24)

Dr. McWilliams

The theory and techniques of financial management. Time value of money; risk and return; financial analysis and planning; working capital management, capital budgeting; cost of capital; strategic long-term financing decisions. Laptop required. Prerequisites: ( ACC 1101 or HON 1101 ) and ( DIT 2010 Concurrency: Yes or HON 2010 Concurrency: Yes or MAT 1235 Concurrency: Yes or MAT 2310 Concurrency: Yes or MAT 4310 Concurrency: Yes or ECE 3720 Concurrency: Yes ) and ( ECO 1001 or HON 1080 ) and ( ECO 1002 or HON 1081 ) and ( DIT 1006 or MIS 1006 or HON 1016 ). For additional information, please contact Dr. McWilliams at [victoria.mcwilliams@villanova.edu](mailto:victoria.mcwilliams@villanova.edu).

### Ethics and Leadership

3 cr.

11112 LDR 2040-035 (5/27-7/27)

Dr. Martini

The nature of ethical leadership. How the leader's values and beliefs affect decision making. The concepts of organizational and social responsibility. This course is restricted to Part-Time Studies students in the BIS degree program. For additional information, please contact Dr. Martini at [pmartini@academyleadership.com](mailto:pmartini@academyleadership.com).

### Introduction to MIS

3 cr.

11342 MIS 1006-015 (5/27-6/24)

Dr. Wagner

Fundamentals of business computing applications as an introduction to the concepts of Management Information Systems. Laptop required. For additional information, please contact Dr. Wagner at [william.wagner@villanova.edu](mailto:william.wagner@villanova.edu).

### Introductory Statistics I

3 cr.

11509 MAT 1230-035 (5/27-7/27)

Dr. Lupinacci

Gathering, displaying and summarizing data, normal distributions, regression and correlation and basic probability concepts. Not open to students who have completed MAT 1505. For additional information, please contact Dr. Lupinacci at [paul.lupinacci@villanova.edu](mailto:paul.lupinacci@villanova.edu).

### Principles of Nutrition

3 cr.

11568 NTR 2120-015 (5/27-6/24)

Dr. Costello

11569 NTR 2120-016 (5/27-6/24)

Dr. Costello

The course "Principles of Nutrition" provides students an opportunity to explore current research and issues related to nutrition and health. Emphasis is placed on nutrition as an integral component of mind body wellness. The students will study nutrients and their role in health promotion and disease prevention. Each student will have the opportunity to assess their own dietary habits by comparing their nutrition behavior to current recommendations. Consumer issues such as food safety and the influence of the media on food choices will also be examined. The unique nutrient needs of the various stages of the life cycle such as pregnancy and childhood will be presented. Topics such as healthy weight management will also be studied. "Principles of Nutrition"

is taught by a Registered Dietitian and offers students the experience to study the complex and interesting role nutrition plays in our overall health. There are no prerequisites for this course and it should fulfill the nutrition requirements for most Nursing Education programs. All students enrolled in the course must review their Villanova email as all initial course information will be sent to their Villanova email account in late April/early May. For additional information, please contact Dr. Costello at [marcia.costello@villanova.edu](mailto:marcia.costello@villanova.edu).

### **Healthy Lifestyles and Human Values**

11577 NUR 2200-015 (5/27-6/24)

3 cr.  
Dr. Costello

The Healthy Lifestyles and Human Values course is designed to offer college students the opportunity to consider healthy lifestyles, health-related concerns, and issues of contemporary living with a focus on personal decision-making within a context of values and responsibility. Students will be exposed to comprehensive information on life issues and be able to identify available resources for education and health promotion. Course content, assignments and other related information will be accessed via the course Internet web page and the required course textbook. Individual online responses and dialogue among students enrolled in the course will be extensive. There are no prerequisites for this course and it should fulfill the course requirements for a free elective requirement. All students enrolled in the course must review their Villanova email as all initial course information will be sent to their Villanova email account in late April/early May. For additional information, please contact Dr. Costello at [marcia.costello@villanova.edu](mailto:marcia.costello@villanova.edu).

### **Research in Nursing**

11578 NUR 3110-015 (5/27-6/24)

3 cr.  
Dr. Cantrell

Emphasis on the methods of systematic inquiry in nursing practice. Designed to develop critical consumers of published research. For additional information, please contact Dr. Cantrell at [mary.ann.cantrell@villanova.edu](mailto:mary.ann.cantrell@villanova.edu).

### **Introduction to Philosophy**

11149 PHI 1050-015 (5/27-6/24)

3 cr.

11150 PHI 1050-016 (5/27-6/24)

Dr. Brogan

11151 PHI 1050-017 (5/27-6/24)

Dr. Brogan

Dr. Brogan

The issues of God, persons and nature, and knowledge. Readings include sources which give special consideration to the classical and Christian perspectives. For additional information, please contact Dr. Brogan at [walter.brogan@villanova.edu](mailto:walter.brogan@villanova.edu).

### **Philosophy and Literature**

11160 PHI 2760-025 (6/26-7/27)

3 cr.

11161 PHI 2760-026 (6/26-7/27)

Dr. Lang

11162 PHI 2760-027 (6/26-7/27)

Dr. Lang

Dr. Lang

Philosophical ideas in selected literary works; examination of the relation of literature to philosophy; fiction and truth, modes of communication. For additional information, please contact Dr. Lang at [helen.lang@villanova.edu](mailto:helen.lang@villanova.edu).

### **Philosophy and Film**

11154 PHI 4150-015 (5/27-6/24)

3 cr.

11155 PHI 4150-016 (5/27-6/24)

Dr. Carvalho

11156 PHI 4150-017 (5/27-6/24)

Dr. Carvalho

Dr. Carvalho

Understood philosophically, what a film means turns up on three levels. It is revealed in the ways issues about being human are addressed and answered in a film, in how this or that representation of our relation to nature or the city or modernity, the past and the future, to race, gender, and class distinctions, to love, sadness, coming of age, and death challenges or enhances the ways we understand our everyday lives and experiences. How does a film distort, idealize, inform or correct our ordinary perception of reality? It is revealed in the ways films "mean." How do films make meaning from the otherwise random gradations of light and local or incidental sounds that are attached to reels of perforated celluloid and digital data files? It is revealed, finally, in the aesthetic qualities of films. How can we appreciate films as works of art. TEXT: Braudy and Cohen, *Film Theory and Criticism*, 6e (ISBN: 0195158172). REQUIREMENTS: Participation on Blackboard, seven (500 word) response papers weighted equally and averaged to equal half the final grade, and one (1500-2000 word) term paper equal to the other half of the final grade. For more go to <http://www.homepage.villanova.edu/john.carvalho/Film/information> or contact Dr. Carvalho at [john.carvalho@villanova.edu](mailto:john.carvalho@villanova.edu).

### **The Concept of Light**

11291 PHY 1500-025 (6/26-7/27)

3 cr.

Dr. Siah

Historical and analytical survey of the concept of light from classical to modern view points. Open to Villanova School of Business and Arts majors (fulfills Arts core science requirement when taken with PHY 1501). This WebCT course allows students to download the syllabus, assignments, and the PowerPoint presentation of the lectures. Readings are assigned for every day of the course. Final grades are based on the assignments, tests, and participation in on line discussions. A voluntary meeting at 1:00 p.m. on the Friday before the start of classes will be held in Mendel 362 for those interested in learning more about the course and/or how to participate in the course. Books required for the course are found in the Villanova University bookstore. For additional information please contact Dr. Siah at [javad.siah@villanova.edu](mailto:javad.siah@villanova.edu), or 610-519-4886.

### **Gravity**

11283 PHY 1502-015 (5/27-6/24)

3 cr.

Dr. Siah

Gravitational force and the laws governing the motion of objects; Newton and Einstein's theories; role in the evolution of the universe; interaction with other forces of nature. Non-calculus based. For Villanova School of Business and Arts majors (fulfills Arts core science requirement when taken with PHY 1503). This WebCT course allows students to download the syllabus, assignments, and the PowerPoint presentation of the lectures. Readings are assigned for every day of the course. Final grades are based on the assignments, tests, and participation in on line discussions. A voluntary meeting at 1:00 p.m. on the Friday before the start of classes will be held in Mendel 362 for those interested in learning more about the course and/or how to participate in the course. Books required for the course are found in the Villanova University bookstore. For additional information, please contact Dr. Siah at [javad.siah@villanova.edu](mailto:javad.siah@villanova.edu), or 610-519-4886.

### **Introduction to American Government**

11169 PSC 1100-015 (5/27-6/24)

3 cr.

Dr. Thompson

This course examines the informal and formal elements of the American political system. The informal elements support the environment for democracy and security by its nation building history of federalism, constitutionalism, and civil rights buttressed by pressure groups and political parties. The formal elements are institutionalized in the elections, three branches of the central government, bureaucracy and foreign policy. Comparable to a tutorial independent course, students download the syllabus and assignments, and view the instructor's lectures and class discussions on the American issue assigned for the day. The final grade is based on 5 assignments and 3 projects scheduled entirely as asynchronous writing work, that is, there are no

required times for students to be on line for chat rooms. Punctual submission of assignments and projects are essential to receive full grading credit. The required textbook is found in the Villanova University bookstore. A voluntary meeting at 5 P.M. on Thursday, April 23, 2009, will be held in SAC 202 for those interested in learning more about the course and/or how to participate in the course.

### **International Relations**

11185 PSC 1200-035 (5/27-7/27)

Factors in relations between states; the nature, elements, and role of power; problems faced by the modern state system. For additional information, please contact Dr. Gustafson at [lowell.gustafson@villanova.edu](mailto:lowell.gustafson@villanova.edu).

3 cr.

Dr. Gustafson

### **Black Politics**

11174 PSC 2750-015 (5/27-6/24)

Analysis of black American politics, including ideology, electoral participation, movement politics, and public policy. Africana Studies Minor/Concentration. Diversity I. Writing Enriched. For additional information, please contact Mr. Pryor at [frank.pryor@villanova.edu](mailto:frank.pryor@villanova.edu).

3 cr.

Mr. Pryor

### **Political Economy of Black America**

11181 PSC 2775-025 (6/26-7/27)

The interplay between race and economics over time; features the principles, terminology and methods of standard economics and Black political economy.

3 cr.

Mr. Pryor

Diversity I. For additional information, please contact Mr. Pryor at [frank.pryor@villanova.edu](mailto:frank.pryor@villanova.edu).

### **Ireland**

11177 PSC 4950-015 (5/27-6/24)

This course invites students to learn about the informal and formal elements of Ireland's political system. The informal elements examine the Irish culture, history of the Irish State, its political parties and elections. The formal elements are institutionalized by the presidency, parliament, Prime Minister and the courts. The course ends by examining Ireland's foreign policy with Northern Ireland. Comparable to a tutorial independent course, students download the syllabus and assignments, and view the instructor's lectures on the Irish issue assigned for the day. The final grade is based on 5 assignments and a research project scheduled entirely as asynchronous writing work, that is, there are no required times for students to be on line for chat rooms. Punctual submission of assignments and the paper are essential to receive full grading credit. The required textbook is found in the Villanova University bookstore. A voluntary meeting at 5 P.M. on Thursday, April 23, 2009, will be held in SAC 202 for those interested in learning more about the course and/or how to participate in the course.

3 cr.

Dr. Thompson

### **Industrial and Organizational Psychology**

11407 PSY 2700-015 (5/27-6/24) Restricted to Part-Time Studies students.

11408 PSY 2700-016 (5/27-6/24) Restricted to non Part-Time Studies students.

This course is designed to demonstrate how theories of psychology are applied to the workplace. To have effective workplaces and productive and motivated employees, organizations are looking closely at the impact of the organizations work environment, leadership, formal/informal policies and other factors. Topics include organizational structure, people and personality, motivation, job stress, group dynamics, communication and leadership and gender.

Students will work in teams via course chat rooms. Students need to have access to a web browser such as Firefox or Internet Explorer and have access through ISP to the campus network. Prerequisite: PSY 1000 or HON 1811. For additional information, please contact Dr. Stokes at [robert.stokes@villanova.edu](mailto:robert.stokes@villanova.edu).

3 cr.

Dr. Stokes

Dr. Stokes

### **Social Problems**

11398 SOC 1500-025 (6/26-7/27)
